

Subpart 5.4—Release of Information

5.401 General.

(a) A high level of business security must be maintained in order to preserve the integrity of the acquisition process. When it is necessary to obtain information from potential contractors and others outside the Government for use in preparing Government estimates, contracting officers shall ensure that the information is not publicized or discussed with potential contractors.

(b) Contracting officers may make available maximum information to the public, except information—

(1) On plans that would provide undue or discriminatory advantage to private or personal interests;

(2) Received in confidence from an offeror;

(3) Otherwise requiring protection under Freedom of Information Act (see subpart 24.2) or Privacy Act (see subpart 24.1); or

(4) Pertaining to internal agency communications (e.g., technical reviews, contracting authority or other reasons, or recommendations referring thereto).

(c) This policy applies to all Government personnel who participate directly or indirectly in any stage of the acquisition cycle.

5.402 General public.

Contracting officers shall process requests for specific information from the general public, including suppliers, in accordance with subpart 24.1 or 24.2, as appropriate.

5.403 Requests from Members of Congress.

(a) *Individual requests.* Contracting officers shall give Members of Congress, upon their request, detailed information regarding any particular contract. When responsiveness would result in disclosure of classified matter, business confidential information, or information prejudicial to competitive acquisition, the contracting officer shall refer the proposed reply, with full documentation, to the agency head and inform the legislative liaison office of the action.

(b) *Inclusion on solicitation mailing lists.* Upon request of a Congressional Committee or Subcommittee Chairperson, contracting officers shall place any member of a Committee or Subcommittee on the applicable solicitation mailing lists to receive automatic distribution of solicitations in the specific area of interest.

5.404 Release of long-range acquisition estimates.

To assist industry planning and to locate additional sources of supply, it may be desirable to publicize estimates of unclassified long-range acquisition requirements. Estimates may be publicized as far in advance as possible.

5.404-1 Release procedures.

(a) *Application.* The agency head, or a designee, may release long-range acquisition estimates if the information will—

(1) Assist industry in its planning and facilitate meeting the acquisition requirements;

(2) Not encourage undesirable practices (e.g., attempts to corner the market or hoard industrial materials); and

(3) Not indicate the existing or potential mobilization of the industry as a whole.

(b) *Conditions.* The agency head shall ensure that—

(1) Classified information is released through existing security channels in accordance with agency security regulations;

(2) The information is publicized as widely as practicable to all parties simultaneously by any of the means described in this part;

(3) Each release states that (i) the estimate is based on the best information available, (ii) the information is subject to modification and is in no way binding on the Government, and (iii) more specific information relating to any individual item or class of items will not be furnished until the proposed acquisition is synopsisized in the CBD, or the solicitation is issued;

(4) Each release contains the name and address of the contracting officer that will process the acquisition;
